

# Rock Raiders

PSX – USA

Level Design

Proposed Designs for the 2-player cluster of missions.

Client:	Artworld UK	Contact:	Stewart Green	Additional Details:	Contact @ Gameworld Seven Ltd Julian Hicks
Project:	Rock Raiders USA	Date:	21 January 2000		
Page number:	1				Design –2player levels

## Two Player Mode

A cluster of six two player levels – including both race and co-operative modes.

### The race mode

- Hop Skip and jump
- There and back again

### The co-operative mode

Medium length levels with a series of challenges based around the vehicles. Bronze, Silver and Gold objectives are the same as the other levels with primary the objective being rewarded with bronze the secondary objective rewarding silver and gold awarded for completing the whole level within a time limit.

Specific focus on the players having different vehicles which need to work together to achieve the aims of the mission the combinations are:

- Tunnel Transport & Large laser cutter – Crystal Isles
- Tunnel Transport & Chrome cutter – Bridge Building
- Bulldozer & Large laser cutter – Web of fire
- Rapid rider & Tunnel scout - Departure

There and back again

4.1

Brief

A single crystal awaits you, but to get to it you will need the tunnel scout to get there.

- 1/ The racer's get their Rapid Riders and race down river.
- 2/ At the other end, they must get out, drill ad collect their tunnel scouts.
- 3/ Flying back allows a short cut over the rock monsters.
- 4/ Flying over the lava to land and exit.

Departure

4.2

Brief

We are moving out of this area, as it is becoming unstable. You need to collect all the Rock Raiders and make your way to the exit. If you can, there are a few remaining energy crystals to collect.

- 1/ working together, the players must collect the lost Rock Raiders along the river.
- 2/ To get silver and gold, the players will need the dynamite and go back for the red energy crystals.

Web of fire

4.3

Brief

A lava tunnel has broken through between two cave areas, we will put you down in one. You must try and get to the other, collecting energy crystals as you go.

- 1/ Working together, the Dozer to clear the webs and the Laser to cut hard rock.
- 2/ To get silver and gold, they will need the dynamite at the exit and go back for the red energy crystals.

## Building Bridges

### 4.4

#### Brief

A chamber has been flooded by lava. A team is needed for this difficult mission – the scanner shows the place alive with movement, so be careful!

- 1/ Mine with all the tools for the ore to make the Tunnel Transport.
- 2/ Open up the routes and find the scoops you will need.
- 3/ A series of buckets of water are required to get to the end.
- 4/ A rock fall will set you back before the exit.
- 5/ For Silver and Gold – You will need to control your vehicles carefully as they enter the narrow tunnels.

### Crystal Isles

4.5

#### Brief

A series of underground chamber has been found. However it is flooded and a team is required. You will have to work together to bring out the energy crystals.

- 1/ Get to the Chrome Crusher and Tunnel Transport and Pick-up
- 2/ A set of careful put-down/pick-ups are required to get the gems.
- 3/ Be careful flying. Try to avoid the obstacles.
- 4/ The ammo at the exit will make some of the other sections simpler.
- 5/ Very careful now to get Silver and Gold.

Heavy weights

4.6

Brief:

A single crystal lies at the end of this tunnel. To test your skills you have a range of the biggest equipment we have standing by. Good luck.

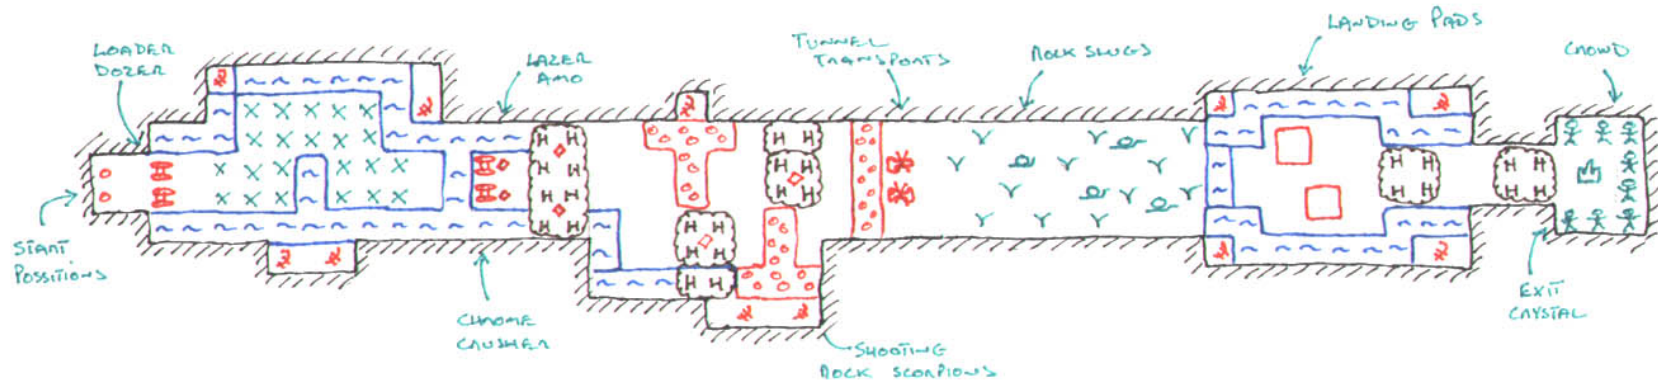

- 1/ jump in your loader doser and smash your way through the cob webs.
- 2/ out of your loader doser and jump to the chrome crusher.
- 3/ smash your way through the rock.
- 4/ jump across to get your tunnel transport, don't forget to pick up the chrome crusher.
- 5/ drop the chrome crusher, land the tunnel transport, back into the chrome crusher and cut your way to the crystal.
